Education

June 2009 - August 2009

Cygnus Business Media

Fort Atkinson, WI

PHP Web with MySQL

- While not a “traditional” educational experience, my work on the PTEN toolbox voting application, as well as some other utility applications has given me a chance to use my training and broaden my skill sets in PHP and MySQL development.
- Most of my true development experience at Cygnus has been self-driven; I discovered a problem, and created a solution.

January 2008 – May 2008

MATC Madison

Madison, WI

PHP Web with MySQL

- Developed the core basics of PHP and connections through MySQL Database.
- Used various PHP functions to manipulate data pre and post database interaction.
- View the [Full Course Outline](http://www.octoberwind.com/data/PHP-courseOutline.pdf) online. (<http://www.octoberwind.com/data/PHP-courseOutline.pdf>)

December 2004-March 2007

TechSkills, LLS

Brookfield, WI

MCIW-D, MCAD, MCSD .Net

- CIW Associate Certification: 10/6/2005
- Master CIW Designer Certification: 2/15/2006
- 70-229 MS SQL 2000: 6/22/2006 (*MCP*)
- 70-306 Windows Applications with VB.NET: 10/20/2006
- 70-310 XML Web Services: 12/20/2006 (*MCAD .NET certification*)
- 70-305 Web Applications with VB.NET: 1/22/2007
- 70-300 .NET Solution Architecture: 3/26/2007 (*MCSD .NET certification*)
 - <http://www.octoberwind.com/techskills.php>

September 2002 – June 2004

Milwaukee School of Engineering

Milwaukee, WI

Construction Management

I was enrolled in the Bachelor of Science – Construction Management program for two years. I withdrew from classes in the summer of 2004 to pursue a web design and application development path.

Course list can be view at <http://www.octoberwind.com/msoe.php>

Professional Memberships

- I earned my Microsoft Certified Professional title, as well as Microsoft Certified Application Developer and Microsoft Certified Solutions Developer with a focus on the Microsoft .NET Framework during my time at Tech Skills.
- Since October 2003, I have been a member of the Wisconsin and National chapters of the American Institute of Constructors, a professional construction society focused on ethics and continual education in the construction industry.
 - Between October 2003 and January 2004, AIC expanded their national website, with 5 State Chapter ‘pilot website’. Wisconsin being one of those chapters, I played an integral role in populating the website from a template design.
 - In 2006, I rewrote the Wisconsin chapter’s site myself, and moved it to my own host.
 - I am currently planning a more dynamic, user-controllable site with PHP and MySQL.
